WORK EXPERIENCE

Python Developer Tata Consultancy Services

07/2019 - Present

Bengaluru

Responsibilities:

- Being a python developer at TCS my first responsibility is to write an efficient, reusable, and scalable code.
- I'm responsible for handling day to day issues and resolve them to enhance the performance of the existing app.
- I take part in code-reviews and prepare technical documentation for reference and reporting purpose.
- I closely work with front-end developers to gather the requirements to develop and improve the API and models.
- I'm responsible for enhancing the functionalities of current software system and implementing the MVT architecture in developing the web applications with the help of django framework.

PRIMARY SKILLS

Python

Django

ACHIEVEMENTS

Stood among top 10 teams in TCS-Inframind organized by TCS India in TCS Pune.
(09/2017 - 01/2018)

CERTIFICATES

Advanced Python by Joe Marini (04/2022 - 04/2022)

I've attended and successfully completed Advanced python training on LinkedIn Learning by Joe Marini.

PERSONAL PROJECTS

Shop Management System in Python (03/2018 - 05/2018)

- Shop Management System is a desktop application that keeps track of all the transactions and generates a bill for all the purchased goods.

TRAINING/INTERNSHIP

Tata Consultancy Services, Pune (06/2018 - 08/2018)

During the internship period, I worked on Automation using PowerShell scripting and developed automation tools to be consumed internally.
